DUTCH BUILT 50

Dominate the seas

STRATOS DUTCH BUILT 50 – SKY

This Stratos Dutch Built 50, named SKY, is a striking and fully specified example of the model. Finished in Ferrari Grigio Ferro Metallic with a contrasting Ferrari Rosso Corsa waterline, she presents a bold yet refined presence on the water.

Powered by twin Volvo Penta IPS 800 D8 engines, SKY delivers effortless performance and control in all conditions. Built as the unrivalled SUV at sea, she is designed to handle demanding environments with ease, while offering a level of utility and refinement rarely found in this segment.

Certified to CE Category A, she is engineered for offshore conditions, reflecting the strength and capability at the core of the Stratos philosophy.
Her carbon fibre hardtop, featuring an openable rooftop, enhances both functionality and onboard experience, while the bow and aft areas are designed to create seamless, open living spaces throughout the yacht.

She features an extensive specification, including stabiliser, generator, lithium battery pack, FLIR camera, hydraulic beach platform, eight underwater lights and a watermaker, ensuring maximum comfort and autonomy on board.
Sleek yet sporty, robust yet luxurious, SKY represents the essence of Stratos DNA.

A rare and immediate opportunity to step into the Stratos experience.

Your adventure starts here.
